

Catalogue Kits ELISA de Diagnostic

www.sediag.com
Anticorps et Diagnostic

SEDIAG SAS, has more than 25 years of experience in the field of phytodiagnosics. We produce reagents and antibodies for the detection of a wide range of plant pathogens (viruses and bacteria).

Our experience is based on innovative processes which allow us to offer you reliable high-quality diagnostic reagents with AFNOR certification. These strengths have enabled us to gain the trust of our many phytodiagnostic customers.

SEDIAG SAS provides agricultural professionals with an analytical laboratory designed for the detection of plant pathogens (viruses and bacteria). Our testing services comply with the strict

requirements and quality standards of ISO / IEC 17025.

Our reagent production process and our laboratory analyzes are certified by AFNOR under ISO9001: 2015 requirements.

SEDIAG has its own R&D laboratory and therefore we have participated in several European projects such as VITISENS, MYCORRAY & VALITEST.

*Sam Seddas, Ph.D
Director*

SEDIAG SAS, possède plus de 25 ans d'expérience dans le domaine du phytodiagnostic. Nous produisons des réactifs et des anticorps permettant la détection d'une gamme importante de pathogènes infectant les végétaux (Virus & bactéries).

Notre expérience, basée sur des procédés innovants permettant de vous proposer des réactifs de diagnostics fiables, de haute qualité certifiés AFNOR. Ces points forts nous ont permis de gagner la confiance de nombreux acteurs du phytodiagnostic.

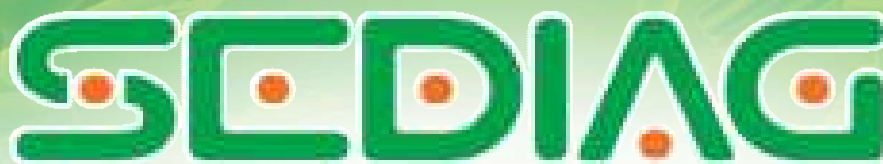

SEDIAG SAS met à disposition à l'ensemble des professionnels de l'agriculture un laboratoire d'analyse pour la détection des pathogènes des plantes (virus & bactéries). Nos services d'analyses sont

conformes aux règles strictes et aux normes de qualité selon ISO/CEI 17025.

Notre processus de production des réactifs et nos analyses laboratoires sont certifiés par AFNOR sous exigences ISO9001 : 2015.

SEDIAG possède son propre laboratoire de R&D. A ce titre nous participons à plusieurs projets européens : VITISENS, MYCORRAY & VALITEST.

Directeur*

Your Partner in Phytodiagnostic
Votre Partenaire en Phytodiagnostic

SEDIAG is proud to present you its new catalogue

In order to improve your research products, we propose a new way of pathogen selection.

As you will discover, you can choose your reagents by two ways:

- either via the Index, where pathogens are classified according to the host plant line (grapevine, field crops, fruits...).
- or directly by virus or bacteria names (alphabetical order) thanks to the tab.

It may be possible that your requested reagent is absent of our list, but do not hesitate to contact us for any product, we can certainly help you to find it!

We also have added some technical information (p.3) and recommendations (p.4).

Enjoy your plant disease analysis.

Dr Sam Seddas, Ph.D
International Product Manager

SEDIAG est fière de vous présenter son nouveau catalogue :

Afin d'améliorer votre recherche de réactifs, nous vous proposons une nouvelle façon d'effectuer la sélection des pathogènes de votre choix.

Comme vous le découvrirez, vous pouvez maintenant choisir vos réactifs de deux manières différentes :

- soit via l'Index où les pathogènes sont classés selon la gamme de plantes hôtes qu'ils infectent (vignes, grandes cultures, fruits...).
- ou, directement en recherchant par ordre alphabétique le nom du virus ou de la bactérie en vous aidant des onglets créés sur ce nouveau catalogue.

Il est possible que le réactif que vous souhaitez commander soit absent de notre liste. Cependant, n'hésitez pas à nous contacter, nous pourrions certainement vous aider à le trouver!

Nous avons également ajouté des informations techniques supplémentaires (p.3) et des recommandations d'utilisation de nos réactifs (p.4).

Bonnes analyses.

Dr Sam Seddas, Ph.D
International Product Manager

Directement à l'adresse email: info@sediag.fr ou via l'un de nos distributeurs

Concerning our product references* :

Nos références* :

Each product code is composed of a pathogen prefix, format code, and quantity, with the exception of positive and negative controls.

SLR Pathogen Prefix	SRA Format	0500 Number of tests
------------------------	---------------	-------------------------

SRA	-----	Reagent set, Alkaline Phosphatase
SRB	-----	Reagent set, Biotin
XRA	-----	Full kit, Alkaline Phosphatase
XRb	-----	Full kit, Biotin
TRA	-----	Kit 480 tests, Alkaline Phosphatase
TRb	-----	Kit 480 tests, Biotin
LNC	-----	Negative control
LPC	-----	Positive control
IF	-----	Immunofluorescence

* Please to note that all our conjugate antibodies were coupled with either Biotin or Alkaline phosphatase (never both).

* Merci de noter que tous nos anticorps conjugués sont couplés soit avec la phosphatase alcaline soit avec la biotine (jamais les deux).

Kits Content / Contenu des Kits

	Antibodies	Positive & Negative controls	Coating, Conjugate & Substrate buffers	Substrate tablets	Extraction & Wash buffers	ELISA plates

Technical Information

Informations techniques

Among our large range of reagents, you will find different format of ELISA tests.

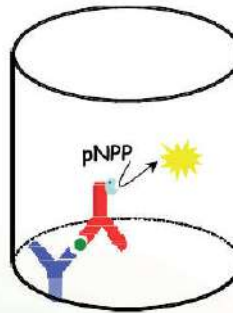

Parmi notre large gamme de réactifs, différents formats de tests ELISA existent.

The three main are the following :

Voici les trois principaux :

➤ DAS

(Double Antibody Sandwich)

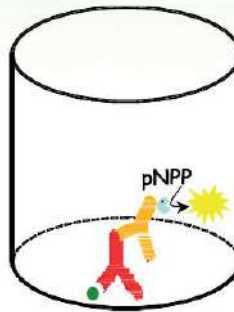

Protocol :

- .Coating-Ab: 2h – 37°C
- .Antigen: 16h – 4°C
- .Conjugate-Ab: 2h -37°C
- .Substrate (pNPP) : 1 and 2h

➤ PTA

(Plate-Trapped Antigen)

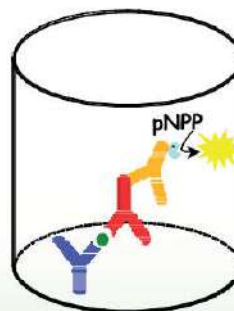

Protocol :

- .Antigen: 16h – 4°C
- .Probe-Ab: 2h -37°C
- .Anti-species-Ab : 2h - 37°C
- .Substrate (pNPP) : 1 and 2h

TAS

(Triple Antibody Sandwich)

Protocol :

- .Coating-Ab: 2h – 37°C
- .Antigen: 16h – 4°C
- .Probe-Ab: 2h -37°C
- .Anti-species-Ab: 2h – 37°C
- .Substrate (pNPP) : 1 and 2h

Legend:

Coating Antibody

Conjugate or Probe Antibody

Coupled anti-species Antibody

Antigen

Alkaline Phosphatase

Test Procedure / Déroulement du test

English

- . As a rule, our ELISA reagents are optimized for use in DAS format with working volume of 100 μ L per well.
- . We highly recommend to read carefully the technical sheet upon the reception of your order (conditions can change between 2 batch numbers).
- . Before beginning your experiment, centrifugate the tubes containing antibodies.
- . Respect every incubation time and temperature conditions.
- . During your analysis, always insert positive and negative controls in order to validate your tests.

Français

- . En général, nos tests ELISA sont optimisés pour une utilisation au format DAS à 100 μ L par puits.
- . Nous vous recommandons vivement de lire la fiche technique de chaque anticorps après réception de votre commande (les conditions d'utilisation peuvent changer entre 2 lots).
- . Avant de commencer votre analyse, pensez à centrifuger vos tubes d'anticorps.
- . Respecter les temps et températures d'incubations mentionnés sur les protocoles.
- . Lors de vos analyses, toujours utiliser des contrôles positifs et négatifs pour valider vos tests.

Test Procedure / Déroulement du test

English

No color or low OD values

- . You may have not added the substrate powder or tablet to the substrate buffer
- . You may have done error during the ELISA procedure
- . Error in concentration of reagents
- . You may not have added one of the antibodies
- . Coating antibody has been added in the place of conjugate antibody
- . You may have not stored properly the reagents
- . You may have used non-checked pH, contaminated or out-of-date buffers

. You may have used wrong ELISA plate

All is Yellow

- . You may have coated the plate with the conjugate antibody
- . You may have not washed correctly your ELISA plates
- . The substrate tablet or the substrate buffer are contaminated
- . You may have not stored properly the reagents

Français

Pas de coloration ou valeurs de DO faibles

- . Vous avez peut-être oublié de mettre la poudre ou la tablette de substrat dans le tampon substrat
- . Vous n'avez peut-être pas suivi le protocole correctement
- . Vous vous êtes trompés dans le calcul des concentrations d'utilisation des anticorps
- . Vous avez peut-être oublié l'ajout d'un des anticorps
- . L'anticorps de coating a été déposé à la place de l'anticorps conjugué
- . Vous n'avez peut-être pas stocké correctement vos réactifs
- . Vous avez peut-être utilisé des tampons dont le pH n'a pas été vérifié, contaminés ou périmés
- . Vous avez peut-être utilisé une mauvaise plaque ELISA

Tout est jaune

- . Vous avez peut-être incubé l'anticorps conjugué à la place de l'anticorps de coating
- . Vous n'avez peut-être pas lavé correctement vos plaques ELISA
- . Les tablettes de substrat ou le tampon substrat sont contaminés
- . Vous n'avez peut-être pas stocké correctement vos réactifs

ELISA Plates

5 ELISA plates, 96 well	ELISA-Acc 005	16 €
--------------------------------	---------------	------

Mesh Bags for sample preparation

500 mesh bags	SAC-Acc 0500	217 €
1000 mesh bags	SAC-Acc 1000	395 €
5000 mesh bags	SAC-Acc 5000	1 681 €

Adhesive film

X 100	FLM-Acc	53 €
--------------	---------	------

Substrate Tablets

24 tablets of 5 mg each (10 ELISA plates)	TAB-Acc	39 €
--	---------	------

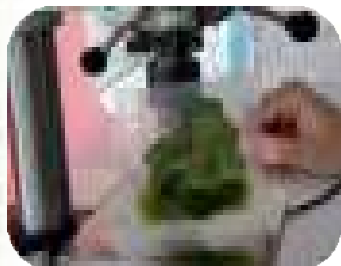

ACCESSORIES

Accessories

Tissue Homogenizer

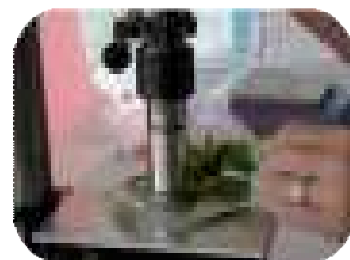

Broyeur

- Optimal pathogen extraction in vegetal tissue
- Adapated for large range of plants (grapevine leaves or wood, citrus, ornamantals...).
- Extraction optimale des pathogènes dans les tissus
- Adapté pour le broyage de divers plantes (vignes, agrumes, plantes ornementales...) sur feuilles, bois...

Easy collect of plant sap
Récupération aisée des jus de plantes saines ou infectées

Easy Grinding with mesh bags
Broyage facilité dans les sachets avec maillage

Non contractual picture

Complete apparatus:

Appareil Complet

BRO-Acc 001 - 4 457 €

Roller Ball crusher:

Tête de broyage

BRO-Acc 100 - 303 €

English	Français
- Mechanism with control lever to raise and lower the column of press	- Mécanisme à levier pour lever et descendre la colonne de presse
- Knockdown ball bearing	- Roulement à billes démontable
- Useful with mesh	- Utilisable avec les sachets de broyage
- Voltage : 220 V / 50-60 Hz	- Voltage : 220 V / 50-60 Hz
- Adjustable rotation speed	- Vitesse de rotation ajustable
- Easy installation and started	- Installation et mise en route simples
